

Certified Teachers Multiple States

Hello Everyone!

As you may know, Edgenuity has an expanding Online Services department (formerly known as Virtual School Services). With that expansion, we have an almost continual need for state certified teachers (grades 6-12) to fill contract positions in many states across the country. These contract positions are part time so they are great opportunities for state certified teachers to earn some extra income.

The ideal candidate for this position is state certified to teach grades 6-12, detail oriented, very well organized, computer savvy, and above all, a great communicator. Virtual instructors ensure that students have an excellent experience in our online environment, and they do that by communicating with students frequently via email, phone and other internal systems. The instructor also guides instruction, supports, and manages the learning process, and primarily focuses on the individual needs of each students.

We are currently looking for Certified Teachers for grades 6-12 with multiple state certifications. Subject areas of primary interest are: German, Chinese, Latin, Physics, Technology, and Health Science. Subject areas of secondary interest are: Physical Education, Health, Art, Science, Math, English, and Social Studies. If you know any teachers or know someone who may know someone, please spread the word! Interested candidates should send their resume to apply@edgenuity.com and add their name to our applicant database [here](#). You may also contact Cherith Imes, Director of Instructional Recruiting at cherith.imes@edgenuity.com for additional information.

Thanks and have a great day,

Cherith Imes
