Sec. 13-101. Certificates, permits and licenses.

(a) *Certain activities requiring permit under FEPCA require permit.* No person who is or would be required to have any certificate, permit or license issued pursuant to FEPCA or issued pursuant to any administrative rules, regulations, orders or directives issued pursuant thereto, to authorize that person to transport, handle or

apply any pesticide or pesticides within the State of Arizona, shall conduct such activity within the Community without such certificate, license or permit.

(b) *Applicators of restricted pesticides require license.* In addition to the requirement of subsection (a) of this section, no person who would be a commercial applicator or private applicator of pesticides within the definitions and meanings of FEPCA and Arizona statutes shall apply or otherwise use, or supervise the application or other usage of any restricted pesticide within the Community without a license then currently in effect issued by the director. No such license shall be issued by the director to any person who does not have each certificate, license and permit required by FEPCA to authorize that person to conduct or supervise such application or other usage within the State of Arizona. Revocation, suspension or expiration or other termination of any such federal authorization (while such authorization continues to be required for conduct of the specified activity pursuant to federal law, rule, regulation, order or directive, as applicable) shall constitute automatic cancellation of the license issued by the director.

- (1) Application for such license shall be in such form as is prescribed by the director, to include such information and to be accompanied by such supporting data and verification of qualifications as may be required by the director.
- (2) Issuance of such a license shall be dependent upon the applicant demonstrating to or otherwise satisfying the director, or his or her designated representative, that the applicant:
 - a. Is competent with respect to the application, use and handling of restricted pesticides;
 - b. Is familiar with the nature and characteristics of them, and the dangers inherent in them and which may result from their application, use and handling;
 - c. Is knowledgeable about, and able and willing to take appropriate precautions to protect the public health, safety, and welfare;
 - d. Has suitable equipment, in safe and proper operating condition, for such application or other usage, with trained, reliable and responsible operators, as appropriate;
 - e. Has not demonstrated lack of reasonable care and responsibility in prior processing, transportation, handling, storage, application or other usage, or disposal of pesticides within the Community or elsewhere.

The demonstration or other satisfaction of the requirements set forth in this subsection (2) may be by oral or written examination, satisfactory completion of training courses, actual field operation or demonstration, questionnaires, reports from other agencies or persons, reliance upon federal and state certifications and licenses, or any combination of all or any of the requirements set forth in this subsection (2); or such other appropriate means which may be adopted by the director.

- (3) Any such license issued by the director may be made subject to any reasonable qualifications, conditions, restrictions and limitations deemed to be appropriate by the director.
- (4) Before issuing such a license, the director shall require proof of financial responsibility consisting either of a deposit of money, liability insurance, surety bond or certified check protecting persons, and those claiming under them, who may suffer death, injury, illness or property damage as a result of the operations of the applicant. The director shall not accept any bond of liability insurance except from companies authorized to do business in the State of Arizona. The amount of the deposit, insurance or bond, unless a greater amount is specified by the director, shall be \$100,000.00 for property damage, personal death, injury or illness, public lia-

bility and drift insurance, each separately, and it shall be maintained in not less than that sum at all times during the licensing period. Insurance shall be written in a form acceptable to the director and it shall be evidenced by certificates delivered to the director. Each policy by appropriate endorsement or other provisions shall provide for written notice to the director at least ten days before any cancellation or material change thereof. The license of an applicator who permits the security to fall below the required sum shall be suspended by the director and it shall remain suspended until the security meets the minimum financial requirements. The director may increase the amount of required deposit, insurance, surety bond or other security at any time upon 15 days' notice to the holder of a license.

- (5) A license may be issued by the director pursuant to subsection (b) of this section for any period not to exceed one calendar year, or the remaining portion of the year for which issued. It may be renewed annually upon application to the director and satisfaction of all qualifications and prerequisites therefor.
- (6) There shall be a fee charged for the issuance and each annual renewal of such a license, and an additional fee charge for the reactivation of any such license which is suspended for any reason. The director shall establish from time to time, an applicable fee schedule by regulations pursuant to section 13-100(c)(7). All such fees shall be submitted through the director and payable to the Community.

(c) *Licenses for other activities may be required.* The director may require such other certificates, licenses and permits as he or she deems appropriate from time to time as a condition to the transportation, handling or application of restricted pesticides within the Community. Such authorizations may be based upon such criteria, qualification and conditions as may be prescribed by the director in fulfillment of his or her responsibility set forth in sections 13-99 and 13-100. He

or she may charge annual fees for issuance and renewals of such authorizations in accordance with a schedule of fees to be established from time to time, by the director, by regulation pursuant to hereof, which fees shall be submitted through the director and payable to the Community.

(d) *Alteration, modification of requirements.* The director from time to time may alter, modify, enlarge or increase the requirements, conditions, restrictions and limitations imposed upon any person holding any certificate, license or permit issued by the director, as such change reasonably appears necessary or desirable to the director to protect the public health, safety or welfare.

(e) *Suspension or cancellation.* In addition to all other remedies hereunder and at law, the director may suspend or cancel any certificate, license or permit issued upon a determination by the director that the holder thereof has violated or failed to comply with any applicable term, condition or provision of the certificate, license or permit, this article, any rule, regulation, order or directive pursuant hereto, or FEPCA or Arizona statutes, or rule, regulation, order, directive, certificate, license or permit issued pursuant thereto; or upon a determination by the director that the holder is operating within the Community or elsewhere in a faulty, careless or negligent manner, or has made false, inaccurate or incomplete reports or representations concerning pesticide operations or upon application for a certificate, license or permit hereunder, or is operating with improper or unsafe equipment or without adequate competent and responsible personnel. Such suspension or cancellation shall be upon written notice, and opportunity for hearing before the director not less than five days after notice; unless the director determines that an emergency situation exists, in which event there shall be immediate suspension upon notice, to be followed by such a hearing within five days.
