The mission of the Super Kids Club is to recognize and serve families with special needs children who may otherwise be unable to participate in all other SRPMIC Recreational programs due to their adaptive needs by providing recreational and socialization opportunities. We are committed to providing a variety of enjoyable recreational activities that are safe-accessible, and enrich the lives of the children who participate. Because we believe in lowering the barriers of exclusion, when possible, SRPMIC Recreation staff encourages children to transition into other programs to gain confidence, develop social skills and/or to transition towards

independence.
