AFTER SCHOOL KICK OFF AT REC

By: Jasiel Waters

The Recreation Department kicked off the fall with three staff: Kevin, Jasiel and Rabecca. The Lehi After School Program accepts students from Lehi Elementary School and is located in Lehi at the Lehi Community Center. The SRASP has three classes for different grades:

Angry Birds Class with Diedre and Ephraim, Pokemon Class with Shaina and Sera, Superheroes Class with Dashia and Erin. The LASP has 11 students with three staff: Kevin, Jasiel and Rabecca. So far the After School Program has had different activities, some of them have been: culture class, cooking class, science day, motivational Monday, field trips and Special Interest Classes on Tuesdays, the classes include: STEM, NewsFlashers, World Explorers, Cooking and Sports Club,

ADVENTURE IS OUT THERE!

By: Jaden Aldana

On September 13th I had the opportunity to sit down and interview Dashia Enos, she has been a Recreation Coordinator for 3 years and enjoys hanging out with her children in her free time.

What class do you teach for the Special Interest portion of After School Program?

I teach the World Explorers Class

What kind of tribes are you learning about in the class?

We will be learning about tribes in Arizona as well as other parts of the United States

What kind of countries will you be studying?

We will be studying all the seven continents of the world

What do you hope the kids will learn in this class?

I hope they learn about different tribes and cultures around the world

Where is the one place in the world you would like to travel to?

I would love to visit Egypt

REC TRIALS

By: Marcus Lasiloo

Salt River Recreation had the Rec Trials for Motivation Monday. It was on September 19, 2016. We did relay races and running races in the gym. We did those two

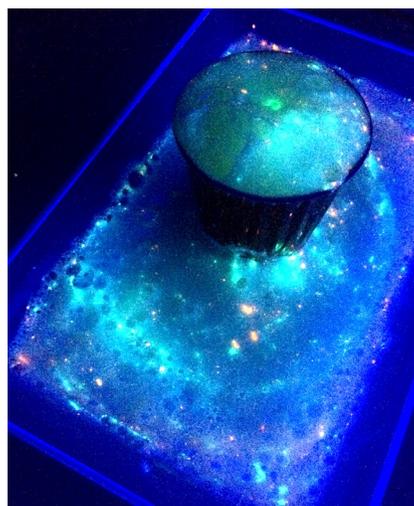

things for fun. Noah's team won 1st place in the relay with Johnny's team coming in 2nd, there were five teams that participated in the relay. The top two teams got trophies and after the races all the teams enjoyed some watermelon.

MAD SCIENTISTS

By: Christian Lopez

The Angry Bird classroom did glow in the dark volcanoes. They did this by getting glow in the dark paint, baking soda and vinegar. First they poured glow in the dark paint in the cups and added baking soda and vinegar, then they turned

off the lights. The volcano glowed in the dark. The Super hero class made balloon rockets, we taped a string to the wall, taped a straw to a balloon then blew up the balloon and then we put the string through the straw, pulled the string tightly and let go. Christian and Marcus won the balloon rocket race.
