

RIVER RUN

Young River People's Council

Clean-up During COVID

During August, Damien, Christine and myself went to clean up the Youth Council adopted road. We picked up over 12 bags of trash and made the road look alot nicer. We noticed alot of masks on the side of the road so I encourage everyone to get reusable masks or at least throw them away in a trash bin and not on our beautiful jeved (land).

-Caleb Dash

Laptop Care:

1. Laptops should be loved and cared for!
2. Laptops, and all electronic devices for that matter, do not like liquids! That includes water, coffee (even designer lattes) and soda.
3. Laptops don't like the dust that collects in their vents, creating a nice blanket on the components inside the computer. The dust makes them warmer than they should be and creates problems. A can of compressed air for a few dollars can help alleviate these problems.
4. Laptops do not like to sit on your lap, they can get hot, and then you can get hot, or even burnt.
5. Laptops like electricity—and they won't work without it! So take very good care of the AC adapter. It's easy to trip on these and break the tip. A new adapter will run you between \$50 and \$80 (ouch!).
