Checking MyWellPath Points

Step-by-Step instructions on how to check employee's and family points in MyWellPath

Family points will be displayed in the Points Box directly under the employee's points (#2). Within this section, you will see a repeat of the employee points section.

- Family total: the total WellPath points the family has earned combined
- This Year Family Earned: the total amount of WellPath points the family has earned in the calendar year
- This Year Family Redeemed: WellPath points the family has redeemed this year
- Redeemable Family: number of family WellPath points in the account that are redeemable
- Pending Family: WellPath points that have been reported but not yet approved by WellPath
- Reward Fulfillment Family: family points that have been redeemed but the reward has yet to be issued
- Expire Soon Family: WellPath points that have not been redeemed for over 12 months (Note: WellPath points last for 15 months before they expire)

Important things to remember:

- Employee points are segregated from Family points.
- Points for participating members on the health plan (dependents) are commingled. Family members/dependents will need to be enrolled in the SRP-MIC sponsored health plan to earn and redeem points for incentives.
- Employee points are redeemed for employee incentives (determined by their employer). Employees designate their incentive preference using his/her MyWellPath account. The incentive preference can be changed at any time in MyWellPath.
 - Cash, Annual Leave, FSA/HSA contribution
- Family points may only be redeemed for Dependent Rewards.

Thank you for participating in WellPath.
